TONOPAH DAILY BONANZA, worth \$6.00.

FOURTH PRIZE—Receipt for three months' subscription to the
TONOPAH DAILY BONANZA, worth \$3.50.

CHANCE FOR GOOD GUESSEER.

How many people are living in Tonopah?

That is a question that has been asked many times during
the last ten days, while the enumerators have been at work, and
as yet nobody can answer it. For the figures are not complete,
and no announcement will be given out until after the totals
have been summed up in Washington.

But in order to make the matter interesting the BONANZA
proposes to institute a guessing contest, with some substantial
prizes to those whose guess happens to be most nearly correct.
This contest will be open to everybody except the enumerators
themselves, and there are no conditions of any kind, except that
the blank herewith be filled out and properly signed, and forwarded
to this office so that it will be received not later than
Thursday, May 12. Any guess postmarked not later than May 12
will be received. All the guesses will be tabulated and filed,
and when the returns are received from Washington, the
names of the successful guessers will be announced and the
awards paid.

Now, how many people are there living in Tonopah?

Fresh buttermilk at the Tonopah
Dairy.

ARISE EARLY
TO TAKE A LOOK
AT THE COMET

HALLEY'S HEAVENLY VISITOR
PROVES TO BE A MAGNIFICENT SIGHT.

Halley's comet is now a magnificent object in the morning sky. It can be seen to the best advantage between 3 and 4 o'clock, before the dawn begins to break.

The gigantic head, nearly 200,000 miles in diameter, is not very bright for a body of that magnitude, as it consists of a comparatively small nucleus, surrounded by a dull coma. But the tall, straight and slender, streams out away from the sun to a distance of more than 20,000,000 miles, and as we observe it, somewhat foreshortened, it covers from 12 to 15 degrees of the celestial arc.

The position of the head yesterday morning was about eight degrees northwest of Venus, now shining in great splendor, and rising half an hour after the comet's tail first looms above the eastern horizon. The comet is at its farthest visual distance from the sun and will apparently move toward it until the two bodies are in conjunction, May 18.

On the evening of that date the earth, speeding along its orbit with a velocity of 18½ miles a second, will dart through the comet's tail at a distance of about 14,000,000 miles from its head. But the radiations from the comets head that form the tail will be so extremely attenuated that no effect will be perceptible in our earth's atmosphere, and no possible harm is to be feared.

After conjunction May 18, the comet promises to be a splendid object in the western sky immediately after sunset and will remain visible to the naked eye, with constantly diminishing brightness as it recedes from the sun and earth for a month longer. Doubtless the telescopes will follow it till the end of the year.

Astronomers in every observatory on the globe are watching its

RECEIVER'S SALE

The undersigned will dispose of \$7,300.00 of shelf and heavy hardware, together with the buildings and ground occupied by J. E. Green & Co., in Rhyolite, Nevada, on the 25th day of May 1910.

The property has been divided into lots or parcels. Bids are solicited for all or any of the lots. An inventory will be furnished on request. Address E. P. Miner, receiver, Rhyolite, Nevada.

4-28, 5-1, 8, 12, 15.

movements and observing its behavior with the keenest interest. On its previous return in 1835 the arts of photography and spectroscopy did not exist, and the lens of the largest refracting telescope in the world was only nine inches in diameter. Today the Lick observatory has a 36-inch refractor, and the Mt. Wilson has a 60-inch reflector. What can they do in solving the mystery of the comet's constitution, and the nature of its wonderful appendage of radiant matter?

Every person who has a spark of enterprise and intelligent curiosity should set his alarm clock at 3 o'clock tomorrow morning and gaze from an eastern window at this glorious object, which will not visit us again for three-quarters of a century.

AT THE CHURCHES

BAPTIST CHURCH.

There will be preaching at the Baptist church today at 11 a. m. and in the evening at 7:45 p. m., by Rev. W. M. Court, general missionary of Nevada.

PRESBYTERIAN CHURCH.

Preaching tomorrow morning and evening by the minister, Rev. Herman L. Burnham. Morning service at 11 a. m. Subject, "Full Grown Men and Women—the Object of the Church." Evening service at 7:45, with special musical numbers by the choir. Subject, "Motherhood."

Young People's meeting at 6:30, leader, Miss Frances Gilbert. Sunday school, 9:45 a. m., Mrs. W. L. Malone, superintendent. You will be made to feel at home at any of these services. Come to help and be helped. Church on St. Patrick street, south of Jim Butler dump.

EPISCOPAL CHURCH.

Sunday, May 8, the 15th, being "Whit-Sunday," (the birthday of the Christian church), there will be services in the Episcopal church, conducted by the archdeacon. The services will be held as follows: Sunday school at 10 a. m.; holy communion and sermon at 11 a. m.; evening prayer and sermon at 7:45 p. m.

Archdeacon Hazlett, together with the vestry of the church, extends a cordial invitation to the general public to be present at the services.

ST. PATRICK'S CHURCH.

Sunday, May 8. Rector, the Rev. Father Butler. First mass, 8 a. m. At the 10 o'clock mass Leonard's Divine Mass will be rendered by the choir. Offertory—"O Rest in the Lord"—Elijah (Mendelssohn). Before sermon—"Veni Creator," (Millard), choir.

Evening service at 7:30 p. m. Vespers and benediction. Organist, Miss Valencita Bayden; musical director, Mr. Arthur Burrows.

THINK BODY
IS IN SHAFT

Under Sheriff Cahalan received a report from Gold Mountain this morning to the effect that a suspicion prevails that the remains of James Duckering, who disappeared from the Randolph property in that vicinity last October, are resting at the bottom of a winze situated about twelve miles from Gold Mountain.

Only recently miners went into the tunnel in the property and on reaching the opening of the winze, sunk about 300 feet, noticed a strong odor coming from the underground shaft. The men were acquainted with Duckering's strange disappearance and concluded that a solution of the problem might at least have been reached. The report to the sheriff's office was thereupon made.

Under Sheriff Cahalan is preparing this afternoon to send a couple of men to the scene to investigate.

A strange co-incidence connected with the report is that only yesterday L. H. Gross, of Boston, called at the sheriff's office and stated that he had been requested by a brother of the missing man to institute a search for him. Gross, who is president of the White Rock Mining company, and who arrived yesterday from the north with Captain Hooper, states that Duckering is prominently connected in Boston. The missing man was stopping on the Randolph property and prospecting thereabouts, and on an unusually stormy night in October disappeared and though searching parties worked for days over the hills, no trace could be found of him.—Goldfield News.

EIGHT HORSES KILLED
BY BOLT OF LIGHTNING

BRIGHAM CITY, May 7.—Information was brought here today by a farmer from Plymouth, in the Northern part of the county, that during an electrical storm at that place Saturday afternoon eight head of horses were killed by lightning. The animals were feeding along the county road near Mound Springs, when the heavy bolt struck right in the middle of the bunch, instantly killing seven and badly burning another, which died in a short time.

PROSPECTOR RESCUES
FAMILY FROM APACHES

By Associated Press.
GLOBE, Ariz., May 7.—Drunken Apaches attacked the ranch of Dan Mabon, four miles east of here last night, seeking Mabon, who killed an Apache several months ago. Only his wife and daughter were at home, and they were rescued by Gene Barrows, a prospector, after a fight with the Indians.
